

Command water. At a touch

There are more exciting things to do than watching water boil. Let the SenseBoil® induction hob assist. It detects rising bubbles and automatically reduces to a low simmer. No more constant monitoring. So the focus can be on what matters most. Fine-tuning those flavours. Mastering that menu.

Product Benefits & Features

Boiling water, under control with the boil sensor

The Boil Sensor detects rising bubbles and automatically adjusts the temperature settings, reducing it to a controlled simmer. No more monitoring. Saving both time and energy.

- Automax function
- Powerful booster
- 15 stage digital power level displays
- Child safety control lock
- Control lock
- Front left: 1 large induction zone with booster
- Front middle: 1 small induction zone

Hob2Hood - Cook without distractions

This hob has Hob2Hood, a useful feature that automatically controls your cooker hood and lights. It means you don't get distracted by trying to regulate the fan when you're at crucial cooking moments: you can simply concentrate on getting your dish right. But if you'd rather adjust the fan speed

Combine zones to cook more

This hob can easily cope when you're cooking large amounts – or simply with bigger pans. Just touch the Bridge button to link and control two cooking zones together to fit any large or long pan. Sharing the same temperature and time setting, the linked zones are ideal when you're cooking for dinner

Perfect control

'Direktouch' controls use the very latest digital technology to ensure precise heat selection.

The adaptable surface for every pan

The MaxiSense® self-sizing cooking zones detect the sizes and shapes of each pan. However large or small. It sends immediate heat to fit their bases, without compromising on performance. Experience the ultimate in kitchen adaptability. For complete culinary control.
