

Great results in half the time

The 6000 CombiQuick® CombiOven uses hot air circulation with microwave technology to provide cooking in half the time without sacrificing flavour. You can also grill, roast and bake – all in one.

Product Benefits & Features

Microwave with Hot Air. For better and faster heating

Microwave with hot air provides dual functions – microwave and convection cooking, which merges hot air circulation and advanced microwave technology so your food is cooked faster and more evenly.

EXPlore. Easy access to your oven's functions

EXPlore allows you to effortlessly control the settings of your oven to know what's happening with your cooking. With the LED display and WiFi connectivity, you can easily see the time, temperature and progress of your dish.

Assisted Cooking. Extra help when cooking

The AssistedCooking function gives you intuitive access to a range of dishes where the oven adjusts automatically. Or the time and temperature can be fully controlled by you.

Get connected. And change the way you cook

Connectivity lets you control your oven from anywhere with our app. Get tips and improve cooking techniques with app-controlled functions at your fingertips.

Your dishes evenly cooked in every corner

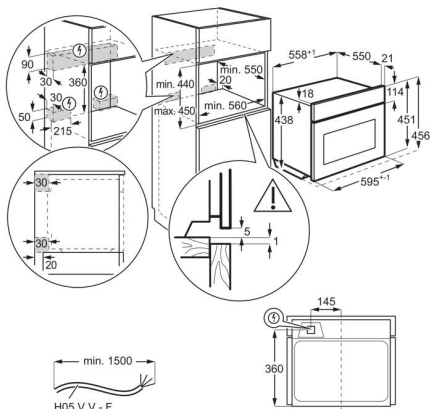

Our Even Cooking system circulates heat throughout the oven, ensuring everything cooks evenly. All without the need to turn your dish. This technology helps the oven heat up faster than a conventional oven, saving you time in the kitchen.
