

Fast full-load cleaning. Advanced load-sensing technology

Get speed and flexibility with Series 6000 MaxWash: A fast cycle even for full-sized loads. Shorten other cycles as needed with TimeSave Plus. Includes anti-bacteria hygiene cycle. Advanced load-sensing technology optimises time, water and energy use.

Product Benefits & Features

Go big, go fast: Wash a full load in 45 minutes at 30°C

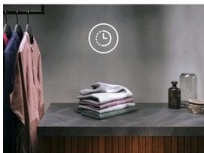

No need to compromise on load size to use a fast cycle. The MaxWash45¹ programme washes even a full machine load at 30°C in 45 minutes. Ideal for typical, lightly soiled, everyday clothes, mixed fabrics and coloured cottons.

Advanced load sensing technology using AI algorithm adjusts cycle time, water and energy.*

AI WashAssist: Advanced load sensing technology using AI algorithm adjusts cycle time, water and energy*, reducing them by up to 30%**.

*Based on Load weight detection algorithm that has been pre-trained based on a variety of loads. No user data is used to further train the AI. ** Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with AI WashAssist for 1kg vs maximum load.

More flexibility with Timesave plus — Efficient washing in quickest time possible

Simply select the TimeSave option to reduce the duration of the cycle up to two times, giving you an efficient wash that is as quick as possible.

The hygiene programme removes more than 99.99% of bacteria and viruses*

The Hygiene programme certified by Swisstest is a high-performance wash cycle that removes more than 99.99% of bacteria and viruses* from clothes. By keeping your wash temperature above 60°C, you can also reduce allergens.

*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstest Testmaterialien AG in 2021 (Test Report No. 202120117)

Inverter Motor+. Durable and energy-efficient

Inverter Motor+ is the advanced evolution of the inverter motor. Its permanently magnetized rotor eliminates the need for magnetization, delivering precise control and consistency, and enabling accurate load recognition through a dedicated algorithm.

- Capacity guide: Suitable for couples or flatmates.
- Delicates: Gently washes the most delicate of fabrics.
- TimeSave: Cuts cycle time by up to half for a faster, flexible wash.
- Delay start: Choose the time you want your washing cycle to start.
- Aqua control: An internal system which monitors the water level to detect leakage.
- Prewash option

Product Specification

Washing Capacity (kg)	8	Series	6000
Max Spin Speed (rpm)	1400	Connectivity	No
Program List	Cottons, Delicates, Duvet, Eco 40-60, Hygiene, Machine Clean, maxwash 45, Spin/Drain, Synthetics, Wool	Spin Energy Rating	B
Push Button Functions	DELAY START, ON/OFF, Options, SPIN SELECTION, Start/Pause, TEMP SELECTION, TIME SAVE	Remaining Moisture (%)	53.4
Noise Rating (dB)	B	Energy Consumption per 100 wash cycles (kWh)	47
Inlet Hose Length (cm)	130	Noise (dB)	75
Dimensions (mm) (HxWxD)	847x596x577(max)	Eco 40-60 Programme Duration (Hours & Minutes)	3:25
Outlet Hose Length (cm)	145	Indicators	NO SPIN, Prewash, RINSE HOLD, Rinse only, Spin1, Spin2, Spin3, Stain, Start/Pause, TEMP1, TEMP2, TEMP3, TEMP4, TEMP5
Depth Max (mm)	577	Energy Rating	A
Motor Type	Inverter Motor+	Net Weight (Kg)	69.5
Drum Volume (L)	53	Gross Weight (Kg)	71
Display	Small LED	Main Colour	White
Cord Length (m)	1.8		
Total Electricity Loading (W)	1900		
Plug or Hardwired	UK Moulded Plug		
Wheels/Feet	4 adjustable feet		
Voltage (V)	230-240		
Required Fuse (A)	13		
Frequency (Hz)	50		
Woolmark	None		
Drawer Compartments	3
