

Automatically adjusts time, water and energy consumption based on the load size

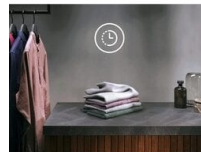

The 6000 ProSense® Washing Machine automatically adjusts time, water and energy consumption to the size of the load, even if it just a single shirt or your entire weekly laundry. Ensuring your clothes are only washed for the exact amount of time needed to maintain colours and textures for longer.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

Product Benefits & Features

ProSense® reduces up to 30% of time, water, and energy* by optimising every load

ProSense® automatically weighs each load to provide a tailored cycle. It can reduce your time, water, and energy usage by up to 30%*. Sensors then adjust washing times precisely, providing optimum treatment for every garment. Ensuring your laundry comes out with that fresh new feeling, every time.

More flexibility with Timesave plus — Efficient washing in quickest time possible

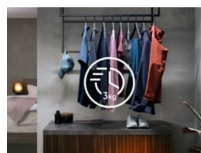

Simply select the TimeSave option to reduce the duration of the cycle up to two times, giving you an efficient wash that is as quick as possible.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

The hygiene programme removes more than 99.99% of bacteria and viruses*

The Hygiene programme certified by Swisstest is a high-performance wash cycle that removes more than 99.99% of bacteria and viruses* from clothes. By keeping your wash temperature above 60°C, you can also reduce allergens.

THE FASTEST WAY TO WASH

For the tightest schedules, this Extra-Quick program enables you to get a 3kg load washed in only 20 minutes.

*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstest Testmaterialien AG in 2021 (Test Report No. 202120117)
