

### Customised care for all fabrics. Including wool and delicates

Wash-to-Dry adapts to each type of fabric for effective cleaning. Woolmark Blue certified, the machine can safely wash and dry all your clothing, including delicates and wool. It also restores the water resistance of outdoor garments.

## Product Benefits & Features

### Wash-to-Dry. Customised care – even for wool and delicates

Wash-to-Dry adapts to each fabric type for gentle, effective cleaning. This Woolmark Blue-certified machine washes and dries all your clothing, including delicates and wool. It also restores the water resistance of outdoor garments.

### AutoSense – effortless efficiency with every cycle

AutoSense adapts to your laundry routine. Sensors inside your washer-dryer measure the size of the load to optimise water and energy usage. You get great results regardless of the load's size or weight.

### A more efficient laundry routine

You're always in charge with the TimeSave button, which lets you adjust your laundry cycles to suit your schedule. Achieve faster results and clean laundry in less time.

### 60min Wash&Dry. Clean and dry clothes in one hour.

The 60min Wash&Dry programme allows you to wash and dry a 1kg mixed load in just one hour. Ideal for quick, convenient laundry care when you are in a hurry. Your outfit is ready when you are.

### Low Noise Machine. A quieter way to wash and dry your clothes

The integrated washer-dryer operates quietly, ensuring minimal noise disturbance during cycles for a more peaceful environment. Perfect for a laundry room or even your kitchen – it won't interrupt your cooking, conversations or mealtimes.

- Washing capacity guide: Suitable for couples or flatmates.
- Condenser dryer: Moisture from the drying cycle is condensed and simply drains away.
- Auto drying: Set one of the 3 automatic drying levels for quick and easy drying. Either iron, cupboard or extra dry.
- Aqua control: An internal system which monitors the water level to detect leakage.
- ProSense®: Measures the size of the load and automatically adjusts washing time, energy and water consumption.
- Wash&Dry 60: Wash in 20 mins or wash & dry a 1kg mixed load in just one hour.

#### Product Specification

Energy Rating (Wash&Dry)	D	Wheels/Feet	4 adjustable feet
Washing Capacity (kg)	8	Cord Length (m)	1.7
Drying Capacity (kg)	4	Inlet Hose Length (cm)	150
