Product Benefits & Features

AI CoolAssist® – advanced cooling that adapts to you

AI CoolAssist® intuitively adapts fridge settings to your daily routine - whether adding groceries or leaving for vacation. AI CoolAssist® learns your habits to optimize cooling temperature, and, during low-use times, can save up to 14% energy.*

TwinTech® No Frost - keeps food juicy and hydrated

TwinTech® No Frost has an advanced dual cooling system for the fridge and freezer. This technology ensures the freezer stays frost-free and the fridge humidity optimal, preventing the food from drying out.

*Energy savings measured on 1780 CB Multichill, 1780 CB Twintech Nofrost and 1225 Freezer NoFrost during activation of Autovacation mode versus factory default settings with AI CoolAssist off and tested with an external temperature of 25°C. Actual energy savings may vary based on usage patterns and

Every corner. Thoroughly chilled. With Cooling 360°

Cooling 360° protects food quality with a steady temperature. Available in metal, glass, or plastic, it prevents ingredients from freezing at the back by circulating cold air through multiple channels for even cooling throughout.*

ExtraChill drawer. For delicate ingredients

An additional pull-out drawer designed for organizing and storing delicate foods such as cheeses and cold cuts. It maintains a lower temperature than the rest of the fridge due to active circulation of cold air.

The Cooling 360° design and materials may vary by market and could include metal, glass, or plastic. Product specifications and materials may vary by region. Please check with your local retailer for more details.

New-era innovation. Unique fridge-freezer with recycled plastic

A new era of cooling is here. Introducing our fridge-freezer with an inner lining made of 70% recycled plastic. Plastic from discarded fridges is used to make new ones, helping reduce waste through circularity.

Inner liner rHIPS made with up to 70% recycled plastic representing 13% of total fridge plastic
