

Fast, powerful and precise. For efficient cooking
 The 5000 Fast & Powerful induction hob with Powerboost heats twice as fast as a radiant hob. Efficient heating with immediate temperature response for seamless and precise cooking experience.

Product Benefits & Features

Heat even faster and more efficiently
 Fast & Powerful induction hob ensures efficient heat. The temperature response is fast and precise, ensuring easier and more accurate cooking.

Quicker heat for extra speed with PowerBoost
 A blast of fast. No more waiting around for pots to boil. The PowerBoost function gives you an instant burst of heat. PowerBoost is perfect for tasks that require you to boil a large pot of water quickly.

Less steps and more control with Direct Touch Controls
 The Direct Touch Controls user interface uses intuitive numbers 1-14 so you can set the right temperature right away without having to toggle through the plus and minus buttons.

Hob2Hood®: The hands-free hood
 The Hob2Hood® function connects the hob and the hood. The cooker hood automatically adjusts the fan speed based on the heat, without lifting a finger. For powerful extraction when searing. And quieter extraction when simmering.

- Hob2Hood®: Allows you to control the cooker hood via your hob.
- PowerBoost: Gives an instant increase in temperature allowing water to boil in less than 90 seconds.
- Pause functionality allows you to take short breaks without losing your cooking settings.
- OptiFix™: Only one step to install the hob.
- EcoTimer™: Saves energy by using the residual heat from the hob, turning off the cooking zone before the end of your timer to boost efficiency.
- Child lock safety function.
- Minute Minder
